

AI-Powered Business Applications Course Slides

This directory contains Marp-formatted slides for the AI-Powered Business Applications course. The slides are based on the learning materials in the `docs/learning/` directory and cover the core concepts of building AI applications with FastAPI and FastOpp.

Course Modules

1. Course Overview (`01_course_overview.md`)

- Course introduction and learning objectives
- Technology stack overview
- Business use cases and cost-effective deployment
- Learning path and prerequisites

2. AI Chat UI (`02_ai_chat_ui.md`)

Happy Learning! 

The best way to learn is by building. Start with small modifications and gradually add more sophisticated features.
